

FCA113 Fusion® CPU Extender Accessory **SKU: FCA113**

For digital signage applications, many installers want to mount the content generating DMP or CPU near the display. Fusion® mounts sit too close to the wall to leave room for larger CPUs. Installers want an option to extend the very popular Fusion® mount further from the wall to give space to mount other devices.

- Adds 3 to 5 inches to the space behind the Fusion® mount adjustable in ¼ inch increments.
- Matches the weight capacity of the Fusion® mount it supports, up to 250 lbs.
- Holds a CPU or other components on the configurable shelf up to 30 lbs.
- Shelf can be located between the Fusion® upright brackets or on the outside of the uprights.
- Maintains the flexibility of independent Fusion® upright mounting.
- Tool-less CPU/shelf removal for maintenance.
- 42-inch double-sided hook & loop strap included to secure CPU.

Specifications

Dimensions &

Depth	3
Equipment Depth Range	0 - 5" (0 - 127 mm)
Height	18.5
Overall Dimensions	18.5" x 18.0" x 3.0" (470 x 457 x 76 mm)
Shipping Weight	4.54 kg (10 lbs)
Weight Capacity	30 lbs (13.6 kg)
Width	18

Characteristics &

Features

Accessory Type	Component Storage
Application	On-Display
Color	Black
