

Tabletop Stand 5

Tabletop stand for touchCUE-5-knob and touchONE-5

Product code: **CS0650**

Main features

- Easy usage with touchCUE-5-knob or touchONE-5
- Freely install on the table
- Possibility of fixing with screws
- Panel tilt angle 15°
- Pass-through for Ethernet cable
- Integrated cable fixing
- Plastic enclosure with metal fixing adapter

Description

The 5" table stand is an accessory for touchCUE-5-knob and touchONE-5. The stand allows you to install both of these panels on a table at a 15° angle. This installation method is ergonomic and makes the touch panel easier to use.

The stand can be fixed on the panel in advance and then the whole set can be placed freely on the table. Or the stand can be fixed on the table with four screws and then the panel can be mounted. The panel is fixed firmly on the stand and can only be removed with a special tool. This protects the panel against theft.

Specifications

Physical

- Tabletop installation
- Plastic body, metal mounting adapter
