

Rack Mounting Shelf

19" EIA rack mounting shelf for controllers

Product code: **CS0449**

Main features

- Holds one full-rack width unit or combinations of half-rack width and quarter-rack width units
- The underside of the unit mount using the included screws
- Full rack width
- Height 1 rack space
- Stainless steel enclosure

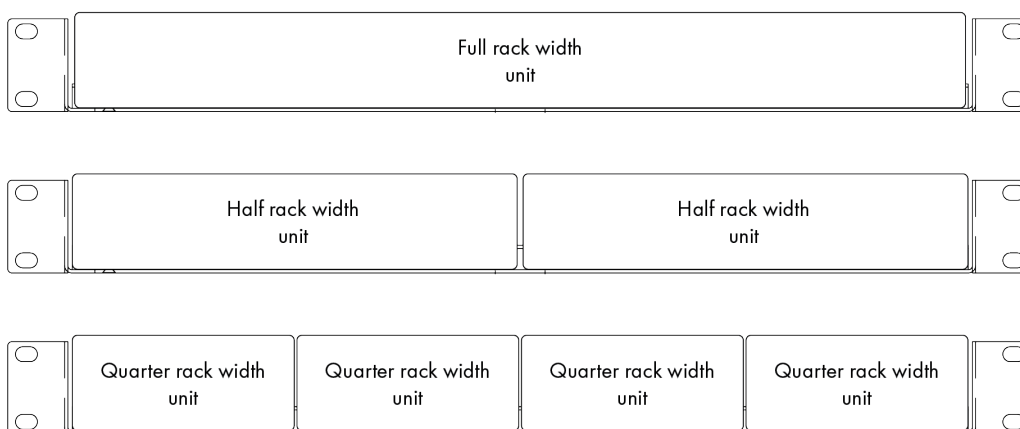

Description

The Rack Mounting Shelf is an optional mounting accessory for controllers and IP interfaces. It allows secure installation of the devices in a 19" EIA equipment rack. The Rack Mounting Shelf occupies 1 rack space and it allows for installation of one full rack width unit, two half-rack width units, four quarter-rack width units, or any possible combinations. The delivered faceplates can hide any open position on the shelf. Rack-mounting hardware is not supplied.
