700 series

Flat panel floor stands

The 700 series Flat panel floor stands

The well-known Audipack 700 series is a range of double column supports and stands for flat panels offering stability combined with flexibility.

It's a concept that meets the functional, technical and aesthetic demands of today's professional presentations.

Audipack 700 series, designed

to be displayed!

The Audipack 700 series flat panel floor stands – presentation solutions offering many advantages.

The Audipack 700 series is a range of supports and stands for flat panels that offers precision combined with flexibility.

Meeting the functional, technical and aesthetic demands of today's professional presentations, they create a base for numerous applications where design, safety, user-friendliness and flexibility are key requirements.

Choose your interface.

The FS series is available with 2 different screen interfaces. The L&S 5 is the Audipack's AV cross rental solution with a wide variety of installation options on the job. The Mult-Vesa solution is a very cost effective mounting interface based on the Vesa mounting pattern on the screen.

With mounting cams the screen can easily be locked in the mounting head.

L&S 5   Mult-Vesa

The perfect rental combination.

The 700 series quick release floor stands can be separated by hand and fitted into an Audipack flight case along with the flat panel. Available for any screen size.

Flight cases are available in different colours with optional logo prints.   Please refer to our separate flight case section on page 23 for more flight case solutions.

800 series

Flat panel floor stands

The 800 series Flat panel floor stands

The new 800 series floor stand redefines flexibility, quick installation and installer friendliness when it comes to floor stand solutions.

Audipack 800 series, designed

to be **noticed**

The 800 series floor stands are specially designed to match slim line flat panels.

The 800 series free standing display is designed to cover todays questions.

It's a slim line well thought of floor stand offering lots of options and solutions.

The column shape is nicely balanced in size for current slim-line flat panels.

The two hidden cable channels in the column are reachable by the automatic closing door. The 800 series column is available in a fixed version and Quick-Release tool-less rental version. By combining the floor stand with an Audipack flightcase all components are neatly organized in the flightcase together with the screen.

The perfect rental combination

The 800 series quick release floor stands can be separated by hand and fitted into an Audipack flight case along with the flat panel. Available for any screen size.

Flightcases are available in different colours with optional logo prints. Please refer to our separate flightcase section on page 171 for more flightcase solutions.

900 series

Flat panel floor stands

The 900 series Flat panel floor stands

The Audipack 900 series is a range of supports and stands for flat panels offering stability combined with flexibility.

It's a concept that meets the functional, technical and aesthetic demands of today's professional presentations.

Audipack 900 series, designed

to be noticed

Combining style with strength, the Audipack 900 series flat panel floor stands are easy on the eye and easy to install.

Calling on Audipack's many years of experience with display stands and accessories, the 900 series incorporates numerous clever features, such as an integrated height position ruler and access hatches for cabling.

As with many Audipack stands and brackets, the 900 series is equipped with the Lock&Secure quick mounting system. Once installed, the flat panel is locked firmly in place for safety and security.

Customised versions of the 900 series products are available on request.

The perfect rental combination.

The 900 series quick release floor stands can be separated by hand and fitted into an Audipack flight case along with the flat panel. Available for any screen size.

Flight cases are available in different colours with optional logo prints. Please refer to our separate flight case section on page 35 for more flight case solutions.

1000 series

Flat panel floor stands

The 1000 series Flat panel floor stands

The most stylishly designed flat panel floor stand in the world.

Just that *extra* little

bit of *class*

Ideal for your reception area or just for extra 'wow' during your presentation.

The Audipack 1000 series flat panel floor stands for screens up to 90 inch.

The 1000 series stands out with its high finish level and class. The floor support comprises a high gloss black floor plate and a sturdy but stately rectangular column.
Combined with the Audipack flat panel monitor installation brackets, it offers a minimalistic look.

Available for 32-65" and 65-90" screen sizes.

To install your flat panel to an Audipack product an additional flat panel bracket is needed.

See "Mounting brackets for flat panels" section on page 112 for an overview of the available brackets.

All-in-one Trolley

for Flat panels

The FSW-Atlas presentation trolley

the all-in-one presentation trolley equiped with integrated audio, data, video connections and power sockets.

Total solution *in one*

Presentation trolley

The FSW-Atlas, a total solution in one presentation trolley; the easiest way to set up your mobile presentation.

The Audipack FSW-Atlas makes it easy for you. The Atlas trolley is an all-in-one trolley with invisible integrated audio in the column.
In addition, there's also a 3-fold power strip integrated for connecting the monitor and optional equipment.

In the wheel frame of the trolley you will find a PowerCON power connection, RJ45, HDMI and space for extra connections.
With a Lock & Secure 5 mounting bracket, the screen is easily installed. The screen height is adjustable in several different positions.

For installing additional equipment such as mini pc's and wireless presentation equipment, Audipack provides several brackets, even with integrated power distribution.

▲ **Lockable wheels**
▲ **Easy equipment installation**
▲ **Powercon power, HDMI and RJ45 in wheelframe**
▲ **Integrated 3-fold power strip F, CEE 7/4**
▲ **Portrait or landscape flat panel positioning**
▲ **Integrated Audio elements**

To install your flat panel to the Audipack FSW-Atlas, an additional flat panel bracket is needed.

See "Mounting brackets for flat panels" section on page 112 for an overview of the available brackets.

Off grid solutions

Audipack develops and manufactures off-grid units that allows to use electric equipment on re-chargeable battery power. This enable to use a screen in every situation, not depending on a 230 VAC socket.

With the Move-It off-grid solution it is possible to present wireless with a screen up to 55" without using a power socket.

The Move-It unit has an internal powerpack that powers the standard 230 VAC screen (via (type F, CEE 7/4)); any place, any time. The minimalistic design back-pack is suitable for many screens, mounted with VESA interface.

FPOG products are made to order and available as custom solutions.

Applications
▲ **Temporarely crowd control**
▲ **Advertisement in malls**
▲ **Mobile advertisement**

Height adjustable Trolleys

for Flat panels

Height adjustable Trolleys

*Height adjustable trolleys, designed for flat panels and touch screens.*

Flexible, durable and rigidly constructed these trolleys are an ideal solution for the education market.

Fit any (touch)screen to the trolley and with the optional Audipack audio solutions the total set-up is clean and well finished.

Audipack designs and manufactures in privately owned design studios and factories, so we can customise the system to suit individual customer's needs. We use our own durable materials that are easy to clean and highly scratch resistant.

Mobile video wall

Display for Flat panels

The Mobile video wall display is a flexible solution that enables you to move your presentation to the desired location

MOBILE VIDEO WALL DISPLAY

The Mobile Video Wall Display is the flexible solution in comparison with a wall mounted or ceiling suspended video wall. The display is made on request and offers lots of possibilities.

As Basic model, Audipack supplies 3x3 and 4x4 configurations for screens of 46", 47", 55" and more. A rigid base frame with lockable wheels, aluminum powder coated frame (Black, RAL 9005) and high finishing grade.

Upgrade options:
- ▲ Column speaker 2 x 240 Watt (LSH-XXXXAR)
- ▲ Passive soundbar 2 x 60 Watt
- ▲ Electric heigh adjustment
- ▲ Active subwoofer
- ▲ Decor panel (to cover back of screens)
- ▲ Grill in order to cover the backside of screens

The electric height adjustment enables you to lower the video wall when moving the display to another location, or raise the video wall higher for a better view by the audience.

▲ **Available for all screen sizes**
▲ **High grade finishing**

Install the Audipack column speakers on both sides of the video wall for not only a perfect audio support for your presentation, but also for a neat side view finishing of the video wall. The vertical soundbars are customized to match the height of the video wall. The soundbar is customized to match the width of the video wall.

Please contact Sales for more information.

PROFILE SPEAKER SET (CUSTOM-BUILT)
