

**3m long USB-C to HDMI ProAV Converter Cable 4K60/HDCP2.3**

## Details

Have you ever wanted to share the screen of your laptop through HDMI, but couldn't do it because you didn't have a USB-C adapter with you? With Lightware's latest **3-meter-long cable**, this and similar situations will no longer be an obstacle, because a single cable can solve your problem, if you don't have HDMI output on your device, whether it be a tablet, a smartphone or a laptop. On the source, it has a **USB-C plug**, while on the transmitter side, it has an **HDMI end**, making work more straightforward and efficient. This solution supports resolutions up to true **4K@60Hz (4:4:4)** for crystal-clear video, and no special driver is required to install, making it ready for easy and immediate use.

## Features

- **No external power source is required**
- **Bandwidth up to 18Gbps**
- **Actively converts a USB-Type-C source to an HDMI output signal**
- **HDCP 2.3 and HDCP 1.4 compliant**
- **No driver is required**
- **Up to 4096x2160@60Hz at RGB 4:4:4 video resolution**
- Product Compliance - RoHS; CE (Europe); REACH; FCC (USA)
- Passes EDID
- Standard-size USB-C connector
- Gold contact plating

## Specifications

<b>Interface</b>	Connectors	1xUSB Type-C™ plug & 1xHDMI Type A plug
<b>Technical characteristics</b>	Video format	Up to 4096x2160@60Hz at RGB 4:4:4
	Data rate	18Gbps
	Audio support	Yes
	HDCP support	HDCP1.4; HDCP2.3
	Driver installation	No required
	Displayport Alternate Mode support	Yes
	Electronically marked	Yes
	Operating temperature	0° to 45°C
	Environmental	RoHS; CE (Europe); REACH; FCC (USA)
<b>Physical characteristics</b>	Length	3m
	Cable diameter	4.5mm
	Pin coating	Gold-plated
	Jacket material	PVC
	Connector material	Aluminum
	Power	No external power required
	Color	Black
	Bending radius	45mm
<b>Note</b>	It is a uni-directional cable and only converts from USB-C to HDMI
