

HDMI 2.0 Power Injector

MG-AOC-66P

OVERVIEW

The MG-AOC-66P is a USB Powered HDMI Voltage Injector that is the ideal solution for a HDMI source device, such as active optical cables that do not provide enough power through the HDMI output for use with HDMI extensions, switches and splitters/DA's. The MG-AOC-66P provides 5 volts up to 400mA of power to an HDMI powered device.

KEY FEATURES

- ◆ Resolves issues caused by insufficient power from HDMI sources
- ◆ HDMI 2.0 supported
- ◆ Simple USB power (5 volts up to 400mA)
- ◆ Low profile adaptor, plugs into any HDMI source
- ◆ RoHs and REACH Compliant
