

7" USB Mimo Touch 2 Portable Resistive Display UM-740R

The Mimo Touch 2 screen can be rotated to display in landscape or portrait modes.

7" USB Portable Resistive Touch Display

Award-winning design that combines flexible, multipurpose uses with improved durability and great looks...the Touch 2 is our most affordable free-standing USB-driven touchscreen and the lowest-cost touchscreen monitor in the world. Add useful desktop space with this versatile, economical, and portable plug-n-play device. Screen can be rotated to display in landscape or portrait modes, or removed from stand altogether to work as a tablet-style screen. The Mimo Touch 2 is also compatible with the Flex-Arm Mount accessory for a near-endless range of mounting options onto virtually any flat surface.

Features:

- 16:9 Widescreen aspect ratio
- Utilizes DisplayLink™ technology that provides video, touch and power over a single USB connection. No separate power supply to worry about
- Integrated stylus for resistive touch display
- Can be applied as a secondary customer-facing display in retail POS environments or as the main display in any small screen application
- Switch from landscape to portrait display in seconds by just rotating the display

Applications:

- Kiosk information system
- Gaming and amusement
- Light industrial shop-floor automation
- POP/POS

Touch 2
