Table *stands* and **mounts**

for Flat panels

The Audipack flat panel table stands,

highly flexible solutions for screens up to 50"

Audipack®

It's great to have solutions...

Free standing *and*

low profile *solution*

The universal flat panel table stand is a solid, low profile, and freestanding presentation solution for flat panels up to 50 inch diagonal.

The discreet design of the product compliments any flat panel perfectly. These stands come equipped with the Lock&Secure mounting system.

To install your flat panel to an Audipack product, an additional flat panel bracket is needed.

▲ **Easy installation**
▲ **Discreet design**
▲ **2 height positions**
▲ **Rigid construction**
▲ **Vertical height adjustment**

The L&S 3 interface fits all Audipack mounting brackets

Video wall and

Multi screen solutions

**Create a video wall in any configuration...**

The Audipack video wall mounting system is the most solid and adjustable system on the market.

Save time and money on the installation.

Audipack®

It's great to have solutions...

VIDEO WALL SYSTEMS

Create a *video wall* in any configuration
in next to *no time!*

Less effort for screen alignment perfection

Installing video walls with Audipack's installation systems saves time and money.

Audipack offers two systems:

VWM Basic system

The universal **VWM basic system** is a low cost, high value installation system that gives fast and precise installation.
The construction looks simple, but there is more than meets the eye. Each screen is separately adjustable when it is installed to the wall or rental flying frame.

The system copes easily with 2x2, 4x4 or even 8x4 configurations. With a simple addition of our screen installation cams, the screens are installed in an instant.

VWMS Serviceable system

The **VWMS serviceable system** is an impressive product that supports the installation of multiple screens on a wall whilst allowing individual screen access for servicing needs.
Each screen in the videowall can be pushed out from the wall, with the Push-to-Release system for service or repair. Simply push the screen back in when complete. The built-in adjustment feature means perfect alignment, even on a non-level wall.

The system copes easily with 2x2, 4x4 or even larger configurations. With a simple addition of our screen installation cams, the screens are installed in an instant.

Mounting head
Manually accessable, with Push to Release system
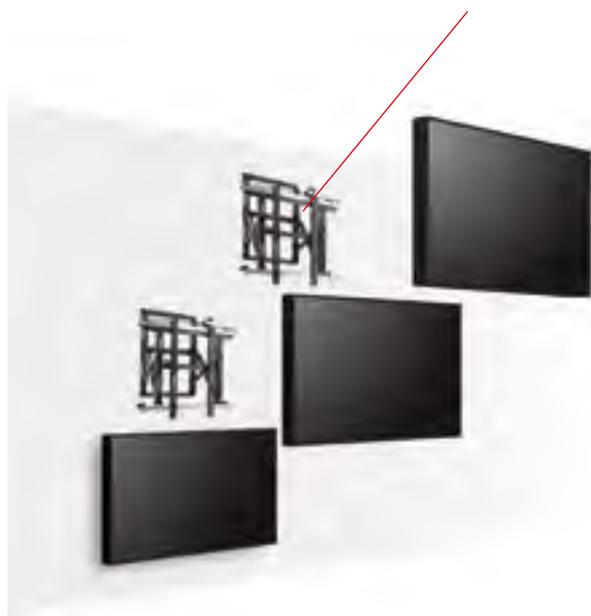

▲ **Short installation time due to "row installing"**
▲ **Push-to-Release system for easy flat panel access**
▲ **Compact offset dimensions (only) 80 mm**
▲ **Post-installation fine tuning of height and leveling for a seamless installation**
▲ **Standard multi-axis adjustable interface, extendable up to VESA 600 x 400**

A perfect aligned videowall, installed in a perfect time and all screens are serviceable. Those are the key elements of the VWMS videowall system. A system that installs with low effort featuring lots of alignment options in 6 axes, even when the wall is not finished well or is not perfectly level. The build-in 3D adjustment features deals with it all. Simply install the mounting heads with the use of the special installation ruler to the wall, mount the two brackets to the flat panel and hang the display on the mounting head. Align the display with the adjustment features.

AUDIO SOLUTIONS

For every flat panel a made to measure soundbar is available. See chapter "Audio solutions" page 3 for more information

Wall mount solutions

for flat panels

The Audipack wall mounts,

are a range of products that offer perfect solutions for Pro AV use or permanent installations.

Flexible, strong

and Innovative!

The strongest and most innovative solutions for wall mounting screens

The Audipack **wall mounts** are specifically designed for quick and safe installations; see them as temporarily rental applications, or for permanent installations. Key benefits include durability, speed of installation and easy product access.

The **Universal wall mounts** offer a wide range for the safe and fast installation of flat panels. Durable, flexible and adjustable they offer the perfect solution for every screen. With the special build-in "align feature" drill mistakes can be solved easily.

(registrated product)

The **Professional temporarily AV wall mounts** are specifically designed for professional installations. The special Lock&Secure mounting interfaces guarantees a quick installation and panel switch if required. Especially suitable for projects, public places, convention centres etc.
To install your flat panel to an Audipack ProAV wall mount an additional flat panel bracket is needed.

A wide range of VESA and universal mounts is available.
All our flat panels wall mounts are safe and easy to install and are available for flat panels up to 120 inch diagonal.

▲ *Fast and easy installation*
▲ *Quick flat panel installation and removal*
▲ *Theft delay*
▲ *Very rigid design*

▲ *Yearly check-up required*

Max. **200**

The screen-crawler makes it possible to safely lift large screens with a minimum of effort and less installers. You simply attach the screen with hoisting cables/bands to the hoist aid and you hoist up te screen with the hinch.

Wall arms

for flat panels

Audipack flat panel swivelling wall arms;

a world standard in stability and ease of use.

Relax *and enjoy*

the flexibility

Enjoy your flat panel from anywhere in the room.

Face the screen towards your kitchen, child's play area or your guests. The clean lines of the design negate the need for complex supports.

These extremely stable wall arms allow the flat panel to be set in any position. Their minimalistic looks and neat dimensions ensure the attention is focused on the screen rather than the wall arm. All cables are hidden in the arm itself, so unsightly wiring is out of sight.

Use the **Screen-Crawler** (SC-190) Installation Aid for safe installation of large, heavy screens. (See page 63)

▲ *Rigid and safe construction*
▲ *Lockable in every position*
▲ *Very flexible in use*
▲ *Integrated cable duct in swing arms and wall plate*

All cables out of sight through the arm

Lockable in position

MOUNTING BRACKETS FOR FLAT PANELS (SEE PAGE 112 FOR THE FULL PROGRAM)

Mount any brand and type of flat panel on any Audipack system with the Audipack mounting brackets.

UFPRO series	Brand related mounts	VESA mounts

Ceiling mounts

for flat panels

With flat panels becoming an increasingly important element of any professional install,

the installation speed, adjustability and stability of the accessories are important features.

Audipack introduces the new generation of ceiling mounts for flat panels.

Stylish and

Professional!

Audipack's flat panel ceiling mounts are durable mounting solutions that allow height and angle adjustment of the flat panel.

The flat panel ceiling mounts are slim, discreet and suitable for any brand and type of panel. This product line enables quick installation and complements any installation. Flexible screen adjustment and neatly hidden cables within the tubes are standard features.
Fixed lengths and telescopic versions are available to position the screen perfectly for every height and location.
The colour of the mounting head is standard black RAL 9005

- **The CMV1 and CMV2 series** feature a new special ball-joint to easily direct and adjust the screen towards the viewer. This product line offers standard VESA 75, 100 and 200 mounting patterns.
- **The FCM and FCMD series** are durable and rigid product lines that offer flexibility for installing _larger single_ or _back-to-back_ screens. Perfect for pro AV installation projects.

With the standard available options it is very easy to adapt the ceiling mounts to meet your installation specifications.

The 800 series flat panel ceiling mounts are designed for installations with large screens installed onto high ceilings. The product stability allows a slim but long ceiling mount, hiding all cables and offering a continuous height adjustable mounting head with forward inclination.
With the Audipack Lock&Secure system the flat panel is easily mounted and quickly secured. Custom-made models are available in lengths up to 4 metres.

▲ *Telescopic models available*
▲ *Perfectly angle adjustment*
▲ *VESA and L&S 5 suited*
▲ *All cables hide through the tube*
▲ *VESA and L&S 5 in black*

Ceiling *to* floor solutions

for flat panels

The Audipack ceiling to floor solutions

A free standing and solid solution in any environment

Create *a* free standing

solution...

The ceiling to floor (CTF) and floor to wall (FTW) products are the ideal solutions for installing flat panels in a free standing position in a room or when a wall is to weak constructed to hold a rather large (touch) screen. The CTF and FTW products are manufactured from modern designed aluminium profiles with an integrated cable duct. For each application a choice, that's why Audipack offers 3 different contour shaped profiles.

Your choices:
The 700 series is the slimmest model which can be used in a single and double version. With its detachable cable duct covers it offers a slim but strong presentation solution.

700 series

The 800 series is a mid-size profile with 2 cable ducts and suitable for mid to large sized LED screens. The screens can be installed along the length of the column.

800 series

The 900 series is the most rigid and strong column. It's strong enough to hold the heaviest screens and rigid enough to handle the longest lengths. With it large internal cable duct the best solution for multiple screen installations like videowalls.

900 series

The ceiling to floor solutions can be made in any length. A perfect solution for any situation...

Order explanation:

CTF-700D-3000

Length from constructional ceiling to floor
(any length available)

Double 700 series column

Ceiling to floor solution
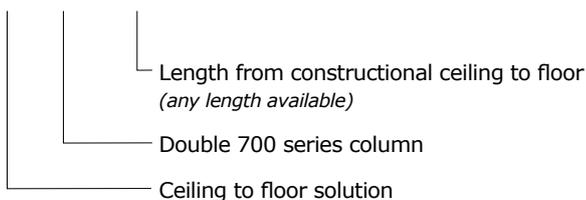

▲ **A free standing solution**
▲ **Rigid and flexible construction**
▲ **Single or multi-screen mounting**
▲ **Integrated cable duct all columns**

Choose your interface.
The FS series is available with 2 different screen interfaces.
The L&S 5 is the Audipack's AV cross rental solution with a wide variety of installation options on the job. The Multi-Vesa solution is a very cost effective mounting interface based on the Vesa mounting pattern on the screen. With mounting cams the screen can easily be locked in the mounting head.

To install your flat panel to an Audipack product an additional flat panel bracket is needed.

Mounting interface: L&S 5

Multi functional mounting interface:
Multi-Vesa 400x400, 600x400, L&S 3, L&S 5

CEILING TO FLOOR SINGLE *700*

Max. "
65

Ref.	CTF-700

Bracket is required for screen mounting
For ordering custom length CTF, please provide dimensions H1 and H2

Ceiling to Floor *with*

integrated Audio

Permanent presentation solution with integrated audio.

The CTF-Atlas is a unique ceiling to floor solution for your flat panel up to 65 inch.
The secret of this presentation solution is the integrated audio feature of 2 x 30 Watt in the vertical column.
A LED screen can be installed via the L&S5 mounting interface and with an equipment holder EC-1 or EC-1WLD (optional) a Mac mini, mini PC or Barco Click- Share mini can be applied.

The CTF- ATLAS has a standard length that can be shortened if needed. Other lenghts can be ordered custom-made to fit the specific ceiling height.

▲ *Easy equipment installation*
▲ *Portrait or landscape flat panel positioning*
▲ *Integrated passive audio*

Built-in speakers

Column mounts

for flat panels

The Audipack column mounts for flat panels

are the most flexible solution for mounting onto pillars or columns

Audipack®

It's great to have solutions...

Stylish *and*

Professional!

Audipack column mounts are ideal for installing flat panels onto round or square columns.

The metal clamp gives a flexible and secure method of mounting that does not undermine the column's strength. All Audipack Lock&Secure mounts can be used in conjunction with this product.

These mounts are custom made to the client's order. They are available in difference diameters for single or multiple flat panel installation.

A slim and solid solution for all situations. No drilling needed.

To install your flat panel to an Audipack product an additional flat panel bracket is needed.

See "Mounting brackets for flat panels" section on page 47 for an overview of the available brackets.

Check www.audipack.com for an updated product range

▲ **Does not affect constructional column strength**
▲ **Clamping installation**
▲ **Custom made for any situation**
▲ **Standard colour black RAL 9005**

Truss mounts

for flat panels

The Audipack truss mounts for flat panels are

a sturdy solution for mounting flat panels to truss constructions.

Audipack®

It's great to have solutions...

TRUSS MOUNTS

Install flat panels to a *truss* *safely* and *quickly*

There is no easier way to mount flat panels to a truss than with one of the Audipack truss mounting solutions.

Audipack offers a range of flexible products that feature safety and speed as key elements. The low risk way to mount the flat panels with the minimal use of tools and external materials.
A fixed mount is available which is directly mounted to the truss. This product line is available with varying lengths of tubes for total flexibility.

To install your flat panel to an Audipack product
an additional flat panel bracket is needed.

Stainless steel security cable: *399941*
