Ultimate flexibility and stability with the Audipack ceiling mounts

Not only the projector itself is an important element in a professional installation.
Quick installation, adjustment features and stability of the accessories are features just as important.

An elegant and flexible solution for mounting the projector to the ceiling with an Audipack Quatro-Fix projector mount.

The Quatro-Fix is a flexible mount that can be mounted to nearly any brand and type of projector. The rigid and tolerance free construction assures a steady projection. Projector cabeling can be neatly hidden in the tube set.

Available in several lengths and colours.

▲ ***Rigid and tolerance free***
▲ ***Easy cable management***
▲ ***Slim and minimalistic design***
▲ ***Available in several lengths and colours***
▲ ***Easy installation***

Including ceiling finishing ring
